

NASA-VA and CARBOTECH JOIN FORCES TO SUPPORT INSTRUCTORS WITH DISCOUNT PROGRAM FOR 2003

NASA-VA is committed to building the finest drivers. A consistent and well trained corps of instructors is paramount to fulfilling that commitment. In an effort to show appreciation and to encourage consistency NASA-VA and Carbotech Brakes have created the following program:

If you are a NASA-VA instructor in good standing and have instructed for NASA-VA in the 2002 or 2003 seasons:

Once= 20% discount
3X = 35% discount
5X = 50% discount

The names of those that have done so will be on a representative list at Carbotech. It is the responsibility of the instructor to inform us of a increased status change. (ie. moving from 35% to the 50% bracket) and we will update the list and forward it to Carbotech within two weeks of each event. Once an instructor has reached a discount level, that instructor must continue to support the instructor program in an ongoing fashion to maintain it's benefits. For every two successive events in which an instructor fails to participate, that instructor will drop one tier in the discount program. This program is in effect as of 4-1-03

Should you choose to take advantage of this program please contact Carbotech at 1-877-899-5024.

The person currently handling the list updates will be Bryan Shugg.

See you at the track,

Chris Cobetto
Director, NASA-VA
